## *What is TREEtini?*

TREEtini (TM)- the cocktail that plants an actual tree! For every TREEtini served a tree will be planted on your behalf. Trees are planted in an area of the world that has been ravaged by a natural disaster and in dire need of reforestation. Currently trees are being planting in Tamil Nadu, India which was ravaged by monsoons. One tree over a 50yr life cycle can generate \$31,250 worth of oxugen, provide \$62,000 worth of air pollution control, recycle \$37,500 worth of water and control \$31,250 worth of soil erosion.
